

## Cell type

- |                                 |                                 |   |                           |
|---------------------------------|---------------------------------|---|---------------------------|
| ○ Adipocyte                     | ☆ Fibroblast embryonic          | ○ Fibroblast periodontal fetal          | ◆ Preadipocyte            |
| △ Annulus fibrosus cell         | ▣ Fibroblast endometrial stroma | □ Fibroblast periodontal ligament       | ● Red blood cell          |
| + Fibroblast                    | ⊗ Fibroblast eye                | ◇ Fibroblast periodontal ligament fetal | + Stellate cell           |
| × Fibroblast aortic adventitial | ▣ Fibroblast foreskin           | △ Fibroblast pulmonary artery           | × Stromal cell pancreas   |
| ◇ Fibroblast breast             | ■ Fibroblast foreskin neonatal  | ▽ Fibroblast skin                       | ⊕ Stromal cell prostate   |
| ▽ Fibroblast choroid plexus     | ● Fibroblast gum fetal          | ✕ Fibroblast trophoblast                | ⊕ Valve interstitial cell |
| ▣ Fibroblast dermal             | ▲ Fibroblast heart fetal        | ● Fibroblast ventricular cardiac        |                           |
| * Fibroblast dermal derived     | ◆ Fibroblast lung               | ● Lipocyte                              |                           |
| ◇ Fibroblast dermal fetal       | ● Fibroblast lung fetal         | ■ Mesenchymal stromal cell              |                           |
| ⊕ Fibroblast dermal neonatal    | ● Fibroblast lymph node         | ■ Myofibroblast                         |                           |
